

TAURUS DUO THERM LED

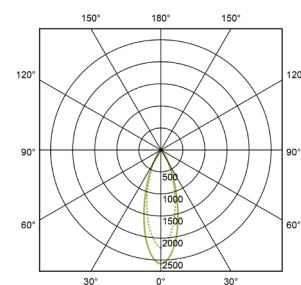

An acoustic and fire rated downlight featuring innovative duo-therm technology, which combines a ceramic and aluminium heat sink for improved thermal management. The combination of Al₂O₃, offering high electrical insulation (1x10¹⁴ - 1x10¹⁵) Ω cm, reduces the operating temperature of the lamp by around 8°C which increases life expectancy by approximately 30%. The Taurus Duo Therm LED can be fixed or adjustable and also IP rated. Available with or without a dimmable GU10 LED lamp.

FEATURES & BENEFITS

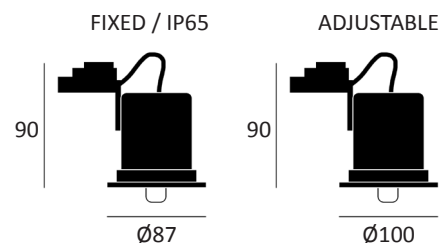

- > Available with and without LED lamp
- > Slim attractive matt white bezel
- > Fire-rated up to 30, 60, 90 minutes
- > Twist & lock design
- > Average 30,000hrs LED life
- > Part B acoustic rated
- > Compatible with leading or trailing edge dimmers
- > Ideal for low ceiling voids

OPTIONS

- > Lower output lamp
- > Brushed nickel bezel
- > Non-dimmable lamp

7W, 4000K
